

TAMC Finance Dashboard Revenue

Annually, Cities, Villages and County Road Commissions submit financial reports to the Michigan Department of Transportation (MDOT). These financial reports are commonly referred to as "Act 51 Reports" in reference to the law which requires these reports and also establishes funding levels, rules and requirements for public roads in Michigan. Act 51 Reports contain revenue and expenditure information for an agencies street funds only. For a full report of an agencies total revenues and expenses, see their official annual financial report.

The following charts group the revenue categories contained in the Act 51 reports over a 9 year period (2004 - 2012). The revenue used on the following charts is from the annual Act 51 Reports as provided to MDOT.

To view a revenue chart, select a year, select the type of agency then select MDOT, City, Village or County Road Commission. Hovering over an revenue category will display the amount and percent of that expenditure.

Hovering over the legend provides the user with the specific breakdown of how these categories relate back to the Act 51 reports as they are different between counties and cities.

Additional information on Act 51 can be found [here](#).

NOTE: Amounts shown for 2012 do not include Revenues and Expenditures for Wayne County.

This Dashboard is updated with the latest data on an annual basis typically released in October.
