INTRODUCTION

The Livingston County Road Commission (LCRC) was organized in 1895 under the County Road Act; Sections 221.1-239.6 of the Michigan Compiled Laws. The LCRC’s transportation program serves all people utilizing the county road system with a safe, efficient, environmentally sound, comprehensive, and cost-effective transportation system. The LCRC serves all people of the county of Livingston, including minority populations, low-income populations, the elderly, persons with disabilities, and those who traverse the State of Michigan. The LCRC recognizes its responsibility to provide fairness and equity in all of its programs, services, and activities, and that it must abide by and enforce federal and state civil rights legislation.

Title VI of the Civil Rights Act of 1964, is the overarching civil rights law that prohibits discrimination based on race, color, or national origin, in any program, service, or activity that receives federal assistance. Specifically, Title VI assures that, “No person in the United States shall, on the grounds of race, color, or national origin, be excluded from participation in, be denied the benefit of, or be otherwise subjected to discrimination under any program or activity receiving federal assistance.” Title VI has been broadened by related statutes, regulations, and executive orders. Discrimination based on sex is prohibited by Section 324 of the Federal-Aid Highway Act, which is the enabling legislation of the Federal Highway Administration (FHWA). The Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 prohibit unfair and inequitable treatment of persons as a result of projects which are undertaken with Federal financial assistance. The Civil Rights Restoration Act of 1987 clarified the intent of Title VI to include all programs and activities of federal-aid recipients and contractors whether those programs and activities are federally funded or not.

In addition to statutory authorities, Executive Order 12898, “Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations,” signed in February of 1994, requires federal agencies to achieve Environmental Justice as part of its mission by identifying disproportionately high and adverse human health or environmental effects of its programs, policies, and activities on minority populations and low-income populations. Environmental Justice initiatives are accomplished by involving the potentially affected public in the development of transportation projects that fit within their communities without sacrificing safety or mobility. In 1997, the U.S. Department of Transportation (USDOT) issued its DOT Order to Address Environmental Justice in Minority Populations and Low-Income Populations to summarize and expand upon the requirements of Executive Order 12898 on Environmental Justice. Also, Executive Order 13166, “Improving Access to Services for Persons with Limited English Proficiency (LEP),” provides that no person shall be subjected to discrimination on the basis of race, color, or national origin under any program or activity that receives Federal financial assistance.

As a recipient of federal financial assistance, the LCRC must provide access to individuals with limited ability to speak, write, or understand the English language. The LCRC must not restrict an individual in any way from the enjoyment of any advantage or privilege enjoyed by others receiving any service, financial aid, or other benefit under its programs or projects. Individuals may not be subjected to criteria or methods of administration which cause adverse impact because of their race, color, or national origin, or have the effect of defeating or substantially impairing accomplishment of the objectives of the program because of race, color, or national origin. Therefore, the primary goals and objectives of the LCRC’s Title VI Program are:
1. To assign roles, responsibilities, and procedures for ensuring compliance with Title VI of the Civil Rights Act of 1964 and related regulations and directives;

2. To ensure that people affected by the LCRC's programs and projects receive the services, benefits, and opportunities to which they are entitled without regard to race, color, national origin, age, sex, or disability;

3. To prevent discrimination in the LCRC's programs and activities, whether those programs and activities are federally funded or not;

4. To establish procedures for identifying impacts in any program, service, or activity that may create an illegal adverse impact on any person because of race, color, national origin, age, sex, or disability; or on minority populations, low-income populations, the elderly, person with disabilities, all interested persons and affected Title VI populations;

5. To establish procedures to annually review Title VI compliance within specific program areas within the LCRC;

6. To set forth procedures for filing and processing complaints by persons who believe they have been subjected to illegal discrimination under Title VI in a LCRC service, program, or activity.

As a sub-recipient of federal transportation funds, the LCRC must comply with federal and state laws, and related statutes, to ensure equal access and opportunity to all persons, with respect to transportation services, facilities, activities, and programs, without regard to race, color, national origin, sex, socio-economic status, or geographical location. Every effort will be made to prevent discrimination in any program or activity, whether those programs and activities are federally funded or not, as guaranteed by the Civil Rights Restoration Act of 1987.

The LCRC shall also ensure that their sub-recipients adhere to state and federal law and include in all written agreements or contracts assurances that the sub-recipient must comply with Title VI and other related statutes. The LCRC, as a sub-recipient who distributes federal transportation funds, shall monitor their sub-recipients for voluntary compliance with Title VI. In the event that non-compliance is discovered, the LCRC will make a good faith effort to ensure that the sub-recipient corrects any deficiencies arising out of complaints related to Title VI; and that sub-recipients will proactively gauge the impacts of any program or activity on minority populations and low-income populations, the elderly, persons with disabilities, all interested persons and affected Title VI populations.
Discrimination under Title VI

There are two types of illegal discrimination prohibited under Title VI and its related statutes. One type of discrimination which may or may not be intentional is “disparate treatment”. Disparate treatment is defined as treating similarly situated persons differently because of their race, color, national origin, sex, disability, or age.

The second type of illegal discrimination is “disparate impact”. Disparate impact discrimination occurs when a “neutral procedure or practice” results in fewer services or benefits, or inferior services or benefits, to members of a protected group. With disparate impact, the focus is on the consequences of a decision, policy, or practice rather than the intent.

The LCRC’s efforts to prevent such discrimination must address, but not be limited to, a program’s impacts, access, benefits, participation, treatment, services, contracting opportunities, training, investigation of complaints, allocation of funds, prioritization of projects, and the overarching functions of planning, project development and delivery, right-of-way, construction, and research.

The LCRC has developed this Title VI plan to assure that services, programs, and activities of the Road Commission are offered, conducted, and administered fairly, without regard to race, color, national origin, sex, age, or disability of the participants or beneficiaries of federally funded programs, services, or activities (see Title VI Assurances).
LIVINGSTON COUNTY ROAD COMMISSION
NON-DISCRIMINATION POLICY STATEMENT

The Livingston County Road Commission reaffirms its policy to allow all individuals the opportunity to participate in federal financially assisted services and adopts the following provision:

"No person in the United States shall, on the grounds of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance." In applying this policy, the Livingston County Road Commission and its sub-recipients of federal funds will not:

1. Deny any individual with any service, opportunity, or other benefit for which such individual is otherwise qualified;

2. Provide any individual with any service, or other benefit, which is inferior (in quantity or quality) to, or which is provided in a different manner from that which is provided to others;

3. Subject any individual to segregated or disparate treatment in any manner related to such individual's receipt of services or benefits;

4. Restrict an individual in any way from the enjoyment of services, facilities or any other advantage, privilege or other benefit provided to others;

5. Adopt or use methods of administration which would limit participation by any group of recipients or subject any individual to discrimination;

6. Address any individual in a manner that denotes inferiority because of race, color, or national origin;

7. Permit discriminatory activity in a facility built in whole or in part with federal funds;

8. Deny any segment of the population the opportunity to participate in the operations of a planning or advisory body that is an integral part of a federally funded program;

9. Fail to provide information in a language other than English to potential or actual beneficiaries who are of limited English speaking ability, when requested and as appropriate;

10. Subject an individual to discriminatory employment practices under any federally funded program whose objective is to provide employment;

11. Located a facility in any way, which would limit or impede access to a federally-funded service or benefit.

The LCRC will actively pursue the prevention of any Title VI deficiencies or violations and will take the necessary steps to ensure compliance. If irregularities occur in the administration of the program's operation, procedures will be promptly implemented to resolve Title VI issues all within a period not to exceed 90 days.
The Livingston County Road Commission designates Steve Wasylk, Managing Director, as the Title VI Coordinator. The Managing Director will be responsible for initiating and monitoring Title VI activities and other required matters, ensuring that the Livingston County Road Commission complies with the Title VI activities and other required matters, ensuring that the Livingston County Road Commission complies with the Title VI regulations and pursues prevention of Title VI deficiencies or violations. Inquiries concerning the Livingston County Road Commission and Title VI may be directed to the Managing Director, 3535 Grand Oaks Drive, Howell, MI, 48843; 517-546-4250; email: swasylk@livingstonroads.org.

ADMINISTRATION – GENERAL

The Livingston County Road Commission designates Steve Wasylk, Managing Director, as the Title VI Coordinator (hereinafter referred to as the “Title VI Coordinator”). Mr. Wasylk shall have lead responsibility for coordinating the administration of the Title VI and related statutes, programs, plans, and assurances.

Complaints - If any individual believes that he/she or any other program beneficiaries have been the object of an unequal treatment or discrimination as to the receipt of benefits and/or services, or on the grounds of race, color, national origin (including Limited English Proficiency), sex, age, or disabilities, she/he may exercise his/her right to file a complaint with the LCRC. Complaints may be filed with the Title VI Coordinator. Every effort will be made to resolve complaints informally at the lowest level.

Data Collection - Statistical data on race, color, national origin, English language ability and sex of participants in, and beneficiaries of LCRC programs, e.g., impacted citizens and affected communities, will be gathered and maintained by the LCRC. The gathering procedures will be reviewed annually to ensure sufficiency of the data in meeting the requirements of the Title VI program.

Program Reviews - Special emphasis program reviews will be conducted based on the annual summary of Title VI activities, accomplishments, and problems. The reviews will be conducted by the Title VI Coordinator to assure effectiveness in their compliance of Title VI provisions. The Title VI Coordinator will coordinate efforts to ensure the equal participation in all their programs and activities at all levels. The LCRC does not have any special emphasis programs at this time.

Title VI Reviews on Sub-recipients - Title VI compliance reviews will be conducted annually by the Title VI Coordinator. Priority for conducting reviews will be given to those recipients of federal (US Department of Transportation) funds with the greatest potential of impact to those groups covered by the act. The reviews will entail examination of the recipients’ adherence to all Title VI requirements. The status of each review will be reported in the annual update and reported to relevant US Department of Transportation (US DOT) modes upon request.

Annual Reporting Form: The Title VI Coordinator will be responsible for coordination, compilation, and submission of annual reporting form data to the Michigan Department of Transportation (MDOT), Civil Rights Program Unit via the Sub-Recipient Annual Certification Form (MDOT Form #0179) by October 5th.

Title VI Plan Updates: If updated, a copy of the Title VI Plan will be submitted to the MDOT, Civil Rights Program Unit, as soon as the update has been completed, or as soon as practicable, and no later than 30 days if significant changes are made.

Public Dissemination: The LCRC will disseminate Title VI Program information to LCRC employees and to the general public. Title VI Program information will be submitted to sub-recipients, contractors, and beneficiaries. Public dissemination will include inclusion of Title VI language in contracts and publishing the Title VI Policy Statement on the homepage of the LCRC’s website www.livingstonroads.org within 90 days of approval.
Remedial Action: The LCRC, through the Title VI Coordinator, will actively pursue the prevention of Title VI deficiencies and violations and will take the necessary steps to ensure compliance with all program administrative requirements. When deficiencies are found, procedures will be promptly implemented to correct the deficiencies and to put in writing the corrective action(s). The period to determine corrective action(s) and put it/them in writing to effect compliance may not exceed 90 days from the date the deficiencies are found.
LIMITED ENGLISH PROFICIENCY (LEP)

On August 11, 2000, President William J. Clinton signed an executive order, Executive Order 13166: Improving Access to Service for Persons with Limited English Proficiency, to clarify Title VI of the Civil Rights Act of 1964. It had as its purpose to ensure accessibility to programs and services to otherwise eligible persons who are not proficient in the English language.

This executive order stated that individuals who do not speak English well and who have a limited ability to read, write and speak, or understand English are entitled to language assistance under Title VI of the Civil Rights Act of 1964 with respect to a particular type of service, benefit, or encounter. These individuals are referred to as being limited in their ability to speak, read, write, or understand English, hence the designation, “LEP”, or Limited English Proficient. The Executive Order states that:

“Each federal agency shall prepare a plan to improve access to its federally conducted programs and activities by eligible LEP persons. Each plan shall be consistent with the standards set forth in the LEP Guidance, and shall include the steps the agency will take to ensure that eligible LEP persons can meaningfully access the agency’s programs and activities.”

Not only do all federal agencies have to develop LEP plans as a condition of receiving federal financial assistance, recipients have to comply with Title VI and LEP guidelines of the federal agency from which funds are provided as well.

Federal financial assistance includes grants, training, use of equipment, donations of surplus property, and other assistance. Recipients of federal funds range from state and local agencies, to nonprofits and organizations. Title VI covers a recipient’s entire program or activity. This means all parts of a recipient’s operations are covered, even if only one part of a recipient’s organization receives the federal assistance. Simply put, any organization that receives federal financial assistance is required to follow this Executive Order.

The LCRC receives funds from the US Department of Transportation via the Federal Highway Administration.

The US Department of Transportation published Policy Guidance Concerning Recipients’ Responsibilities to Limited English Proficient Persons in the December 14th, 2005 Federal Register.

The Guidance implies that the LCRC is an organization that must follow this guidance:

This guidance applies to all DOT funding recipients, which include state departments of transportation, state motor vehicle administrations, airport operators, metropolitan planning organizations, and regional, state, and local transit operators, among many others. Coverage extends to a recipient’s entire program or activity, i.e., to all parts of a recipient’s operations. This is true even if only one part of the recipient receives the Federal assistance. For example, if DOT provides assistance to a state department of transportation to rehabilitate a particular highway on the National Highway System,
all of the operations of the entire state department of transportation—not just the particular highway program or project—are covered by the DOT guidance.

**Elements of an Effective LEP Policy**

The US Department of Justice, Civil Rights Division has developed a set of elements that may be helpful in designing and LEP policy or plan. These elements include:

1. Identifying LEP persons who need language assistance
2. Identifying ways in which language assistance will be provided
3. Training staff
4. Providing notice to LEP persons
5. The recommended method of evaluating accessibility to available transportation services is the Four-Factor Analysis identified by the USDOT

These recommended plan elements have been incorporated into this plan.

**Methodology for Assessing Needs and Reasonable Steps for an Effective LEP Policy**

The DOT guidance outlines four factors recipients should apply to the various kinds of contacts they have with the public to assess language needs and decide what reasonable steps they should take to ensure meaningful access for LEP persons:

1. The number or proportion of LEP persons eligible to be served or likely to be encountered by a program, activity, or service of the recipient or grantee.
2. The frequency with which LEP individuals come in contact with the program.
3. The nature and importance of the program, activity, or service provided by the recipient to the LEP community.
4. The resources available to the LCRC and overall cost.

The greater the number or proportion of eligible LEP persons, the greater the frequency with which they have contact with a program, activity, or service and the greater the importance of that program, activity, or service, the more likely enhanced language services will be needed. The intent of DOT's guidance is to suggest a balance that ensures meaningful access by LEP persons to critical services while not imposing undue burdens on small organizations and local governments.

Smaller recipients with more limited budgets are typically not expected to provide the same level of language service as larger recipients with larger budgets.

The DOT guidance is modeled after the Department of Justice's guidance and requires recipients and sub-recipients to take steps to ensure meaningful access to their programs and activities to LEP persons. More information for recipients and sub-recipients can be found at [http://www.lep.gov](http://www.lep.gov).

**The Four-Factor Analysis**

This plan uses the recommended four-factor analysis of an individualized assessment considering the four factors outlined above. Each of the following factors is examined to determine the level and extent of language assistance measures required to sufficiently ensure
meaningful access to the LCRC services and activities that may affect their quality of life. Recommendations are then based on the results of the analysis.

**Factor 1: The Proportion, Numbers, and Distribution of LEP Persons**

The Census Bureau has a range of four classifications of how well people speak English. The classifications are ‘very well’, ‘well,’ ‘not well’, and ‘not at all’. For our planning purposes, we are considering people that speak English ‘less than very well’ as Limited English Proficient persons.

As seen in Table #1, the Census 2012 Data for the LCRC shows a small number of the population that speak English less than ‘very well’.

**Factor 2: Frequency of Contact with LEP Individuals**

The LCRC has conducted an informal survey of our employees with regard to whether they have had encounters with LEP individuals in the performance of their job functions and found that they have had few encounters with LEP individuals. We have offices accessible to the public and therefore accessible to LEP individuals and we have staff that work in the field that could encounter LEP individuals. Additionally, regular Board meetings are held the second and fourth Thursdays of each month, which would potentially bring LEP individuals to these meetings. Given the number of LEP individuals, as displayed in Table #1 above, the probability of our employees to encounter an LEP individual is very low.

**Factor 3: The Nature and Importance of the Program Activity, or Service to LEP**

The LCRC's main function is to maintain the road network throughout Livingston County. This network is incredibly sound and new roadways will not be added, thus requiring acquisition of land is not an issue. Our services are straight forward and garnered by the weather and wear and tear on the roads by motorists and out of the way of face to face contact. Occasionally, the road surface of a roadway is changed, trees are cut or ditches are dug to improve the conditions for the motoring public and public hearings are held.

It is believed that denial or delay of access to services or information provided by the LCRC could have serious implications on an LEP individual, especially services such as health, emergency transportation, water, sewer, fire protection, policy protection and other emergency services. Therefore, the denial of services to an LEP individual could have a
significant detrimental effect. Although the LEP population in the county is small, we will ensure accessibility to all of our programs, services, and activities.

**Factor 4: The Resources Available to the LCRC and Overall Cost**

US Department of Transportation Policy Guidance Concerning Recipients’ Responsibilities to Limited English Proficient (LEP) Persons published in the Federal Register: December 14, 2005 (Volume 70, Number 239) states:

"Certain DOT recipients, such as those serving very few LEP persons or those with very limited resources, may choose not to develop a written LEP plan."

The LCRC serves very few LEP persons and has very limited resources. However, it has decided to include a LEP section in its Title VI Plan in order to comply with the Executive Order and to ensure access and reasonable accommodations for LEP persons who may be unknown at this time.

**Safe Harbor Stipulation**

Federal law provides a “Safe Harbor” situation so that recipients can ensure with greater certainty that they comply with their obligation to provide written translations in languages other than English. A “Safe Harbor” means that if a recipient provides written translation in certain circumstances, such action will be considered strong evidence of compliance with the recipient’s written-translation obligations under Title VI/

The failure to provide written translations under the circumstances does not mean there is noncompliance, but rather provides a guide for recipients that would like greater certainty of compliance than can be provided by a fact-intensive, four factor analysis. For example, even if a Safe Harbor is not used, if written translation of a certain document(s) would be so burdensome as to defeat the legitimate objectives of its program, it is not necessary. Other ways of providing meaningful access, such as effective oral interpretation of certain vital documents, might be acceptable under such circumstances.

Strong evidence of compliance with the recipient’s written translation obligations under “Safe Harbor” includes providing written translations of vital documents for each eligible LEP language group that constitutes 5% or 1,000, whichever is less, of the population of persons eligible to be served or likely to be affected or encountered. Translation of other documents, if needed, can be provided orally.

This “Safe Harbor” provision applies to the translation of written documents only. It does not affect the requirement to provide meaningful access to LEP individuals through competent oral interpreters where oral language services are needed and are reasonable.

Given the small number of LEP language group members, the LCRC’s budget and number of staff, it is deemed that written translations of vital documents would be so burdensome as to defeat the legitimate objectives of our programs. It is more appropriate for LCRC to proceed with oral interpretation options for compliance with LEP regulations.
Providing Notice to LEP Persons

USDOT LEP guidance says:

Once an agency has decided, based on the four factors, that it will provide language service, it is important that the recipient notify LEP persons of services available free of charge. Recipients should provide this notice in languages LEP persons would understand.

The guidance provides several examples of notification including:

1. Signage in languages an LEP individual would understand when free language assistance is available with advance notice.
2. Stating in outreach documents that free language services are available from the agency.
3. Working with community-based organizations and other stakeholders to inform LEP individuals of the recipient’s services, including the availability of language assistance services.

Statements in languages that an LEP individual would understand will be placed in public information and public notices informing LEP individuals that those requiring language assistance and/or special accommodations will be provided the requested service free of charge, with reasonable advance notice to the LCRC.

Options and Proposed Actions

Options:
Federal fund recipients have two (2) main ways to provide language services: oral interpretation either in person or via telephone interpretation service and written translation. The correct mix should be based on what is both necessary and reasonable in light of the four-factor analysis. iv

The LCRC is defining an interpreter as a person who translates spoken language orally, as opposed to a translator, who translates written language and who transfers the meaning of written text from one language into another. The person who translates orally is not a translator but an interpreter. v

Due to limited financial resources, it is necessary to limit language aid to the most basic and cost-effective services. However, when requested appropriate assistance will be provided.

What the LCRC will do. What actions will the LCRC take?

- Notify the public that interpreter services are available upon request with seven day advance notice.

- With advance notice of seven calendar days, the LCRC will provide interpreter services at public meetings, including language translation and signage for the hearing impaired.

- The LCRC will utilize the Translators Resource List as provided by MDOT for translation services and verbal interpretation.

- The Census Bureau “I-speak” Language Identification Card will be distributed to all employees that may potentially encounter LEP individuals.
• Once the LEP individual’s language has been identified, an agency from the *Translators Resource List* will be contacted to provide interpretation services.

• Publications of the LCRC’s complaint form will be made available online and upon request.

• In the event that a LCRC employee encounters a LEP individual, they will follow the procedure listed below:

**OFFICE ENCOUNTER**

1. Provide an I-speak language identification card to determine the language spoken of the LEP individual.

2. Once the foreign language is determined, provide information the Title VI Coordinator who will contact an interpreter from MDOT’s *Translators Resource List*.

3. If the need is for a document to be translated, the Title VI Coordinator will have the document translated and provided to the requestor as soon as possible.

**ROAD ENCOUNTER**

1. Road crew employees will immediately contact the Title VI coordinator for assistance and provide an I-speak language identification card to the LEP individual to determine the language spoken of the individual.

2. Once the foreign language is determined, provide information to the Title VI coordinator who will contact an interpreter from MDOT’s *Translators Resource List* to provide telephonic interpretation.

3. If the need is for a document to be translated, the Title VI coordinator will have the document translated and provided to the requestor as soon as possible.

**IN WRITING**

1. Once a letter has been received it will be immediately forwarded to the Title VI Coordinator.

2. The Title VI Coordinator will contact a translator from the MDOT’s *Translators Resource List* to determine the specifics of the letter requesting information.

3. The Title VI Coordinator will work with the selected agency to provide the requested service to the individual in a timely manner.

**OVER THE PHONE**

1. If someone calls into our office speaking another language, every attempt will be made to keep that individual on the line until an interpreter can be conferenced into the line and if possible determine the language spoken by the caller.
2. Once the language spoken by the caller has been identified, we will proceed with providing the requested assistance to the LEP individual.

The LCRC's Staff Training

The LCRC's staff will be provided training or made aware of the requirements for providing meaningful access to services for LEP persons.
ENVIRONMENTAL JUSTICE (EJ)

Compliance with Title VI includes ensuring that no minority or low-income population suffers "disproportionately high and adverse human health or environmental effects" due to any "programs, policies, and activities" undertaken by any agency receiving federal funds. This obligation will be met by the LCRC in the following ways:

- When planning specific programs or projects, identifying those populations that will be affected by a given program or project
- If a disproportionate affect is anticipated, following mitigation procedures.
- If mitigation options do not sufficiently eliminate the disproportionate effect, implementing reasonable alternatives.

Disproportionate effects are those effects which are appreciably more severe for one group or predominantly borne by a single group. The LCRC will use U.S. Census data to identify low-income and minority populations.

Where a project impacts a small number or area of low-income or minority populations, the LCRC will document that:

- Other reasonable alternatives were evaluated and were eliminated for reasons such as the alternatives impacted a far greater number of people or did greater harm to the environment, etc.
- The project's impact is unavoidable,
- The benefits of the project far outweigh the overall impacts, and
- Mitigation measures are being taken to reduce the harm to low-income or minority populations.

If it is concluded that no minority and/or low-income population groups are present in the project area, the LCRC will document how the conclusion was reached. If is determined that one or more of these population groups are present in the area, the LCRC will administer potential disproportionate effects tests.

The following steps will be taken to assess the impact of projects on minority and/or low-income population groups:

- **Step One**: Determine if a minority or low-income population is present within the project area. If the conclusion is that no minority and/or low-income population is present within the project area, document how the conclusion was reached. If the conclusion is that there are minority populations groups and/or low-income population groups present, proceed to Step Two.

- **Step Two**: Determine whether project impacts associated with the identified low-income and minority populations are disproportionately high and adverse. In doing so, refer to the list of potential impacts and questions contained in Appendix E. If it is determined that there are disproportionately high and adverse impacts to minority and low-income populations, proceed to Step Three.

- **Step Three**: Propose measures that will avoid, minimize and/or mitigate disproportionately high and disproportionate adverse impacts and provide offsetting benefits and opportunities to enhance communities, neighborhoods, and individuals affected by the proposed project.
• **Step Four**: If after mitigation, enhancements, and off-setting benefits to the affected populations, there remains a high and disproportionate adverse impact to minority or low-income populations, then the following questions must be considered:

  **Question 1**: Are there further mitigation measures that could be employed to avoid or reduce the adverse effect to the minority or low-income population?

  **Question 2**: Are there other additional alternatives to the proposed action that would avoid or reduce the impacts to the low income or minority population?

  **Question 3**: Considering the overall public interest, is there a substantial need for the project?

  **Question 4**: Will the alternatives that would satisfy the need for the project and have less impact on protected populations (a) have other social, economic, or environmental impacts that are more severe than those of the proposed action, or (b) have increased costs of extraordinary magnitude?

• **Step Five**: Include all findings, determinations, or demonstrations in the environmental document prepared for the project.
FILING A TITLE VI COMPLAINT

APPENDIX E
DETERMINE/DISTINGUISH SIGNIFICANT/NON-SIGNIFICANT EFFECTS

“Significant” requires considerations of both context and intensity:

a) Context. This means that the significance of an action must be analyzed in several contexts such as society as a whole (human, nation), the affected region, the affected interests, and the locality. Significance varies with the setting of the proposed action. For instance, in the case of a site-specific action, significance would usually depend upon the effects in the local area rather than in the world as a whole. Both short- and long-term effects are relevant.

b) Intensity. This refers to the severity of impact. Responsible officials must bear in mind that more than one agency may make decisions about partial aspects of a major action. The following should be considered in evaluating intensity:

1) Impacts that may be both beneficial and adverse. A significant effect may exist even if, on balance, the effect would be beneficial.

“Non-significant effect” means no substantial change to an environmental component and this has no material bearing on the decision-making process.

Scientific, technical, institutional, the public’s value, and the local economic conditions influence the meaning of significant effect.

If an alternative would provide a beneficial effect, then the alternative would cause no significant adverse effect. If an alternative would provide an adverse effect, the effect might be significant or the effect might be non-significant.

Determinations of “significant” and “non-significant” effects will be made by the Managing Director.
